

LABELING SOLUTIONS FOR  
**TACTICAL APPAREL**

# WE MAKE YOUR CAMOUFLAGE AND PROTECTIVE CLOTHING UNIQUE.

Precision for the Highest Demands — Labeling Solutions for Tactical Apparel and Equipment

In the world of tactical clothing and equipment, reliability, durability, and efficiency are key — and at THERMOTEX, we understand the importance of optimal labeling.

With RFID Technology, you can even identify each item fully automatically with precision.

## HF or UHF options available

The transponders are embedded in various textiles to ensure seamless tracking.

# TAILOR-MADE SOLUTIONS FOR YOUR TEXTILE REQUIREMENTS

Our innovative solutions, such as the white or black printed transfer film and our custom-made emblems, are specifically designed to meet the high demands of tactical clothing manufacturing.

**Emblems**  
**Embroidered emblems**  
**Sublimation emblems with hook and loop fastener**

With our products, we ensure durable and high-quality labeling that reliably withstands even the most demanding conditions — ideal for uniforms, operational clothing, and other professional applications.

**Transfer film (printed in white or black)**

**Printable labeling tapes (for sewing or heat-sealing)**

**Transfer film (printed in white or black)**

# THIS IS OUR FUTURE — DIGITAL AND SUSTAINABLE

# OUR LABELING SOLUTIONS — AS UNIQUE AS YOUR APPAREL

With our THERMOTEX products, we are ready for the future.

- ▶ Emblems, Embroidered emblems, and Sublimation emblems with hook and loop fastener individually customizable, durable and perfect for use in demanding conditions.

- ▶ **RFID Technology**  
For seamless traceability and optimized logistics processes in the textile sector.

## LABEL SERVICE

THERMOTEX offers outstanding service: Individually printed and wash resistant labels of the highest quality for convenient and fast textile labeling.

Excellent material -> Outstanding service  
-> Ultra-fast delivery

- ▶ **Thermal transfer printable labels**  
Available in white or black, depending on textile color (for heat-sealing)

The print is applied in reverse on the underside of the film, providing protection from external influences.

**Advantage: The print remains unaffected by external factors, ensuring long-lasting durability.**

The THERMOTEX labeling tape stands out with its extreme adhesion and wash resistance.

This durable tape is highly resistant to UV light, weathering and abrasion.

- ▶ Labeling tapes  
CT2017 and CT2019  
For heat-sealing and sewing  
- available in various widths  
- additional colors available upon request
